

SAMARITAN CENTER

The Path to Wellness

In Partnership with

Virtual Groups

**for Family Members or Partners & Spouses
of Someone with a Mental Health Diagnosis**

You need a safe space to process and build resilience.

Finding your own support helps you process and makes you more resilient to the immediate and long-term challenges of caring for a loved one with a mental health condition. During this group, you will meet with other partners/spouses or family members of someone with a mental health condition and a licensed therapist. Discussing your experiences with others can help you feel connected to those who share similar life challenges. The virtual group will be held over a secure and private platform, easily accessible by phone, tablet, or computer. All participants are asked to attend all six groups as it helps ensure group continuity and helps build trust and safety for everyone.
